Further support

Dementia UK

This service is national and has a wide range of online support. There is also advice for how to get more tailored support. There are many sections for patients, their families and their carers, such as:

- Eating and drinking
- Making the home safe
- What to do if someone with dementia stops recognizing you
- Where to find support in your area or online

This is just an example of what they offer, if you visit their website below you will see the vast range of different areas Dementia UK can support you with.
