

Rickleton Medical Centre

ATTENTION ALL PATIENTS!

Here at Rickleton Medical Centre we would like to have our own
'Patient Participation Group' (PPG)

Know what a PPG is? Want to know more?then read on:

Here are just a few reasons for having a PPG:-

- ❖ creates a greater connection between patients and practice staff;
- ❖ gives patients the opportunity to make positive suggestions about the practice;
- ❖ gives patients and practice staff the opportunity to discuss topics of mutual interest;
- ❖ consulting and planning with patients whenever possible on the facilities and provision of services.

Interested?

If you feel you have what it takes to organise and run a PPG, please contact the Practice Manager, Dawn Webster for further information.
