Management use only	Dr B F Cook tasked <input type="checkbox"/>		
Name of person who authorised (if applicable)			Date

Important Information – Please read before returning this form

If you wish to, you can now use the internet to book appointments with a GP, request a repeat prescription for any medications you take regularly and also look at your detailed coded medical records online. You can still use our telephone system or call into the surgery for any of these services. It's your choice.

It is your responsibility to keep your login details and password safe and secure. If you know or suspect that your record has been accessed by someone else then you should change your password immediately.

If you can't do this for some reason, we recommend that you contact the practice so that they can remove online access until you are able to reset your password.

If you print out any information from your record, it is also your responsibility to keep this secure. If you are at all worried about keeping printed copies safe, we recommend that you do not make copies at all.

Before you apply for online access to your record, there are some other things to consider.

Although the chances of any of these things happening are very small, you will be asked that you have read and understood the following before you are given login details.

Forgotten history There may be something you have forgotten about in your record that you might find upsetting.

Abnormal results or bad news If your GP has given you access to test results or letters, you may see something that you find upsetting to you. This may occur before you have spoken to your doctor or while the surgery is closed and you cannot contact them.

Choosing to share your information with someone It's up to you whether or not you share your information with others – perhaps family members or carers. It is your choice, but also your responsibility to keep the information safe and secure.

Coercion If you think you may be pressured into revealing details from your patient record to someone else against your will, it is best that you do not register for access at this time.

Misunderstood information Your medical record is designed to be used by clinical professionals to ensure that you receive the best possible care. Some of the information within your medical record may be highly technical, written by specialists and not easily understood. If you require further clarification, please contact the surgery for a clearer explanation.

Information about someone else If you spot something in the record that is not about you or notice any other errors, please log out of the system immediately and contact the practice as soon as possible.

Proxy Access: Field View surgery does not allow proxy access for parents/guardians.

Access for children - Children between the ages of 11-16 who request online access will need to speak to Dr B F Cook as access to their records will be subject to a Gillick competency test.
