Under the Health and Social Care Act 2008 every registered provider must have a statement of purpose.

Our Statement of Purpose includes a standard required set of information about our service and describes:

- The provider's aims and objectives in providing the service.
- The kinds of service provided.
- The health or care needs the service sets out to meet.
- The location where the service is provided from.
- Details from the provider, including their legal status, manager including the "address for service" for all registered persons.

Our Purpose (Vision):

Is to:

Work together today in partnership with our patients and staff to provide the best Primary Care services possible working within local and national governance, guidance and regulations to achieve a healthy tomorrow for all.

Our Mission Statement:

To improve the health, well-being and lives of those we care for. By providing high quality, accessible care in a safe, responsive and courteous manner.

Our Aims and Objectives

- To: Provide a high quality service:
By working within the NHS to provide the highest possible professional quality of care that meets the identified needs of our patients.
- To: Respect our patients and staff:
To treat patients as individuals and with the same respect we would want for ourselves or a member of our families, listening and supporting people to express their needs and wants and enabling people to maintain the maximum possible level of independence, choice and control
- To: Involve our patient in decisions:
By a whole team approach, To work in partnership with our patients, their families and carers towards a positive experience and understanding, involving them in decision making about their treatment and care.
Supporting our patients to help them make decisions to improve and maintain their health.

- To: Promote best practice:
By using specialist expertise within the practice team and in partnership with other agencies, to tackle the cause of, as well as provide the treatment for patients. We encourage the continuous education and professional development of all members of the practice team, ensuring they have the competency and motivation to deliver the required standards. We will adapt to change, build on our achievements and develop our services.
- To: Be a caring practice:
By conveying compassion in word and action whilst assessing and responding to needs of our patients. Take care of our staff, offering them support to do their jobs and protect them from abuse.
- To: Work together as a team
By working as one flexible unit that enhances our colleagues' ability to perform their roles, working in partnership with other agencies
- To: Work with integrity
By speaking and acting truthfully and being accountable for our actions. Have a zero tolerance for all form of abuse.
- To: Be a sustainable practice
By operating on a financially sound basis. Having as low an environmental impact with as reduced waste as possible, working towards net zero by 2040.
- To: Communicate Effectively
To encourage our patients to communicate with us by joining our Patient Forum, talking to us, participating in surveys, and feeding back and on the services that we offer

The needs of our patients and service user bands were reviewed for their various needs of both physical, sensory or cognitive impairments, their health, their background, and their life events, and we note these for example veterans.

We seek to develop staff and the locations to meet these service user bands. Blackburn Road Medical Centre became the first GP practice in Kirklees to be awarded a gold award under a national pilot that brings the 'Pride in Practice' programme to the district.

In reviewing the service user bands, these services are mainly split into three groups and available at all locations unless noted below:

Essential Services

GP Training

The practice is a training practice. We strongly believe in the future of General Practice and that it is in our hands to affect and build.

Our Intent is to:

- Promote an increase in recruitment of GPs within Primary Care
- Develop leadership skills
- Refine Clinical skills
- Improve research and development in primary care
- Extend training facilities in to Broughton House GP Surgery

We aim to achieve this through:

- Constant re-evaluation of the training delivered and its implementation
- An assumption of the dynamic character of the organisation, and a willingness to change continually - striving for a better way to accomplish tasks and goals.
