Empowering you to take charge of your health:

• Menopause Support

Menopause is inevitable for 50% of the population, but how you deal with it is up to you. Our experienced team can offer guidance, support, and treatment options to help you navigate this transition smoothly.

• Breast Screening

Regular breast screening is vital for early detection and successful treatment of breast cancer. Screening options are based on your individual needs and age. We prioritise for breast lumps, bumps and we have experienced female clinicians.

• Smear Tests/Cervical Screening

Early detection is crucial for cervical cancer prevention. We provide a comfortable and confidential environment for smear tests, ensuring your well-being is our prioritised by our experienced female nurses.

The Grange Medical Practice is dedicated to:

- Providing personalized healthcare tailored to your specific needs.
- Creating a welcoming and supportive environment where you feel comfortable discussing any health concerns.
- Offering educational resources and workshops to empower you with knowledge about your health.
