

COVID Vaccination update 5 March 2021

To date over 40% of our patients over the age of 18 have received their 1st COVID vaccination.

Cohorts 1 to 4 – 70 years and over or shielding

All patients within cohort 1 to 4 have been invited for their 1st vaccination. If you fall into this group but have not booked your vaccination yet please contact the surgery at kippaxhall.reception@nhs.net

If you had your 1st vaccination through the surgery we will contact you when we are able to book your 2nd vaccination, please do not call the surgery until asked to do so.

Cohort 5 – Age 65 to 69

If you are in cohort 5 you should have received an invitation to book an appointment at a mass vaccination centre. We have been instructed not to invite this cohort, but if you would prefer to have your vaccine at our local site please email kippaxhall.reception@nhs.net and we will add you to our list

Cohort 6 – adults with an underlying health condition

We are currently working through cohort 6 - this is adults age 16-64 with specific underlying medical conditions as defined by the UK vaccination experts. This is a large number of people and we are working through the list gradually. Please wait to hear from us for your invitation to book an appointment - **please do not contact the surgery to book a vaccine appointment unless you have received an invitation.**

Cohort 7 and 8 – Age 56 years and over

Patients aged 56 years and over have received an invitation to book an appointment at a mass vaccination centre. **We are unable to vaccinate this cohort of patients yet.**

If you would prefer to have your vaccine at our local site please email kippaxhall.reception@nhs.net and we will add you to our list. **Please do not ring the surgery as our phone lines are very busy**

Mass vaccination centre bookings

Please follow the link below for details on who can book at a mass vaccination centre and how: [Mass vaccination centre booking information](#)
