# Barwell & Hollycroft Practice News— Winter 21-22 Issue

As we welcome 2022, 2021 has been a year like no other and we would like to send thanks to all those involved in the continued running of the practice through these difficult times. As we move into 2022 we hope that much of what we have learned will continue to be useful in the future.

### Covid Vaccination Programme

We, along with mass vaccination hubs, have successfully vaccinated over 10,200 people (72%) with their 1st Covid vaccination. Over 9,480 people (66%) have received their 2nd Covid vaccination and 7500 people (52%) have received their 3rd dose (boosters).

For more information on booking an appointment at a booking site, please visit: <https://www.leicestercityccg.nhs.uk/my-health/coronavirus-advice/coronavirus-vaccine/big-vaccination-weekend/>

### Flu Vaccination Programme

Despite the troubles getting hold of the Flu vaccine in 2021, due to the national shortage of drivers, our flu campaign is progressing well. We have successfully held 4 Saturday flu clinics and visited our local care home/housebound patients to offer the flu vaccination.

### Telephone Appointment Consultations

We are aware the media has created a frenzy within the general public regarding face-to-face appointments within General Practice, the Practice has and will continue to see patients face-to-face when clinically necessary. Since changing our systems to a telephone triage system this has allowed us to increase our appointment capacity by over 25% in the past 12 months alone. We are offering more appointments now than ever before and are working harder than ever before as well as delivering 75% of all Covid vaccinations with no additional staff.
