

### Welcome to the Munro Medical Centre 2013 Patient Survey

This survey is produced in conjunction with the Patient Reference Group (PRG), and follows on from our first local survey last year, the results of which, and progress towards action points are published on our website. Once again, we appreciate and value you taking the time to complete this survey. Your answers and comments help us to improve the service we provide.

We are interested in finding out your views about how we perform and the services we offer, and we would appreciate you completing as many of the questions that are relevant to you as possible. The survey is printed on both sides of the paper to minimize paper usage. Please place a tick or cross in the boxes provided to indicate your answers where appropriate.

In this survey we ask your opinions about staff at Munro Medical Centre. To clarify, we are asking you about staff you would normally see in the surgery, not community (District Nurses) or Hospital staff.

We have tried to keep the survey short, and have reduced the number of questions this year. At the end of the survey there is a general comments section where you can add any other comments you may have. All answers to questions you enter are anonymous. You need only complete this survey once, even if you receive multiple invitations.

Please return completed surveys to us and post through our letterbox at the surgery. The cut off date for this survey is Sunday February 17<sup>th</sup> 2013, which means that we will be unable to accept any responses received after this date (we will include any surveys we receive via our letterbox that day when we open on Monday 18<sup>th</sup> February).

The results of the survey will be published online at our website <u>http://www.munromedicalcentre.co.uk</u> by the end of March 2013.

You have requested, or been sent a paper copy of this survey – should you wish to complete the survey online instead – please follow the link from our website <u>http://www.munromedicalcentre.co.uk</u>

Please note that due to feedback from last year's survey, we have recently changed our telephone number to a local geographical number 01775 715 999, we have also added direct dial lines for Test Results 01775 715 995 and Dispensary 01775 715 996, although all services remain available from the main number if you prefer.

Please note this survey is only open to current patients of Munro Medical Centre. Please do not complete this survey if you are not a registered patient at the surgery.
