MIDDLETON LODGE PRACTICE COLLECTIVE ACTION

Middleton Lodge Practice is working in collaboration with the BMA and other Primary care GP providers in collective action, this will influence how Middleton Lodge Practice works within the Primary Care community sector.

Middleton Lodge is dedicated to preserving services that are provided by both us and other primary care providers and is supporting the work to contract model the BMA have advised; this may mean that your care is navigated to another provider if the surgery has reached working capacity for that day.

We appreciate this will be a change for our staff and patients and hope that our patients will work with us to ensure the safe continuation of services. Please be aware that under this action if you contact us, you may be asked to attend one of the following care providers;

Local Chemists and the Pharmacy First Programme

Call 111 for advice

Attend PC24 walk in centres or local A+E departments

For more information regarding the BMA collective actions please visit our website home page <https://www.middletonlodgepractice.co.uk/>

Thank you for your patience and support during this time, please continue to access our services appropriately and work with us to provide the best care possible. If you wish to be more involved with your surgery ask our receptionists about the Patient Participation Group and work with the surgery to help our patients.

Please address any and all complaints/concerns about the collective action to the following email nnicb-nn.practicemanagerc84021@nhs.net or write a letter addressed to our practice manager Arron Darrall

Many Thanks

Dr Effingham, Dr Edmondson, Dr Dyer
