We want to hear from you!

Nottingham City Council and Nottinghamshire County Council are running a survey about smoking and vaping to help shape their future plans and the services that your community needs.

You don't have to be a smoker or use these products to take part – we want to hear from everybody.

Please use the QR code below to complete the survey – it shouldn't take more than 10 minutes and there are no right or wrong answers!

Bluegrass Research are managing this survey and participation is completely confidential and anonymous, in line with GDPR and the Market Research Society Code of Conduct.
