

Happy To Share?

Caring by sharing - supporting your healthcare at all times

Your GP record contains important information about you. Making **your record** available means all health workers outside of your GP practice such as hospital, walk-in centres and out of hours services, have the information they need to provide you with the best possible care.

When someone from another healthcare organisation wants to see your record they will **always** ask you if it's OK first. If you say 'no' they will not be able to see any information.

If you have already told your practice not to share your record, it will not be made available.

If you do not wish us to share your information in this way please tell us.

For more information, please see the practice website or speak to reception.
