If you are unhappy with an NHS service, it is worthwhile discussing your concerns early on with the service as they may be able to sort the issue out quickly. Most problems can be dealt with at this stage but in some cases, you may feel more comfortable speaking to someone not directly involved in your care. The following information may be of help for you.

Practice Complaints Procedure

If you do have a complaint about the service you have received from a member of staff working in this practice, please let us know. The practice operates a complaints procedure as part of the NHS system for dealing with complaints and this meets national criteria. This is called **Local Resolution**. In the first instance please discuss your complaint with the staff member concerned. If the issue cannot be resolved at this stage, please contact: Claire Barber, Reception Lead or Cat Staff, Operations Manager, who will try

to resolve the issue and offer you further advice on the complaints procedure. If your problem cannot be resolved at this stage and you wish to make a formal complaint, please let us know as soon as possible, ideally within a matter of days. This will enable the practice to get a clear picture of the circumstances surrounding the complaint. On such occasions. please write to the surgery for the attention of the Andy Cutting, Practice Manager.

If it is not possible to raise your complaint immediately, please let us have details of your complaint within the following timescales:

- Within 6 months of the incident that caused the problem or
- Within 6 months of discovering that you have a problem, provided this is within 12 months

The practice will acknowledge your complaint within five working days and aim to have looked into your complaint within 21 working days of the date you wrote to us. At this stage you should be offered an explanation or a meeting with the person(s) involved.

When the practice looks into a complaint it aims to:

- Ascertain the full circumstances of the complaint.
- Make arrangements for you to discuss the problem with those concerned, if you would like this.
- Make sure you receive an apology, where this is appropriate.
- Identify what the practice can do to make sure the problem does not happen again.
- Resolve the matter to your satisfaction.

Note: If you make a complaint it is practice policy to ensure you are not discriminated against, or subjected to any negative effect on your care, treatment or support.
