The purpose of this scheme is to give carers peace of mind by ensuring that, if an emergency happened which stopped them from providing care, arrangements for alternative, planned care could be put in place for at least 48 hours

Longer term arrangements could then be made if necessary

If you would like to take advantage of this scheme you will need:

- To have a carers assessment
- To complete a contingency plan giving details of the person you look after and their needs and planning for how they would be cared for after the first 48 hours emergency care
