**Regarding the SMS text that has been sent
requesting patients email addresses**

In light of the current Covid-19 Coronavirus crisis.

In line with NHS advice and guidelines, the practice is conducting consultations via telephone and video.

Due to the fact that the virus is highly contagious it is essential that visiting the practice is completely minimised.

In light of the above, we are requesting all patients to send us their email address by replying to the SMS text message that has been sent.

This will allow the practice to send essential documents such as referral letters, blood forms etc as well as other information quickly to patients without them having to visit the practice to pick them up.
