

Online Services Patient Summary

If your practice is enabled for patient summary access and you have an Online Services account, you can view the following clinical data they have recorded about you:

- Your Allergy Details Drug and non-drug. See Viewing Allergies (page 1).
- **Your Prescriptions History** Acute, repeat and discontinued. See *Viewing Prescriptions History* (page 2).

Note - If you have no recorded allergies or prescription history the respective tabs will display the message 'You have no related information to display'.

Viewing Allergies

Depending on your practice configuration, if you have any drug or non-drug allergies you will be able to view these in the **Allergies** tab.

1. From the **Online Services home** page, select the **Summary** tab. The **Allergies** tab is displayed by default:

Allergies Tab

- 2. Any drug or non-drug allergies/intolerances recorded on your patient record are displayed in reverse chronological order (most recent first). The following information is displayed:
 - **Date** The date the allergy was recorded at your practice.
 - **Allergy** Displays the name of the drug that you are allergic to or the type of non-drug allergy.
 - **Reaction** The type of reaction to the drug or non-drug allergy. Either Intolerance, Allergy or Adverse Reaction

Note the following

- Your practice may have added extra information to these records about your allergies which is not accessible here. Please contact your practice if you require further information.
- Whilst you can view your allergies here, you are not able to add or change anything on this list. If you think the information recorded is not accurate, please contact your practice.

Viewing Prescriptions History

Important - Currently only available if your practice is enabled for this patient record access.

- 1. From the **Online Services home** page, click on the **Summary** tab. The **Allergies** sub-tab is displayed by default.
- 2. Click to open the **Prescriptions History** tab:

The **Prescriptions History** tab displays three panels:

- Acute Prescriptions In the last 12 months
- Repeat Prescriptions In the last 12 months
- **Discontinued Repeat Prescriptions** Repeat prescriptions that have been inactivated in Vision and have been issued in the last 6 months.

Note the following

- Any prescriptions that have been issued outside the practice are listed, eg hospital prescription.
- Patients cannot re-order repeat prescriptions from this screen. They can do this from the **Prescription Ordering** tab.
