Dear patient

Re: Barnsbury Medical Practice, 8 Bingfield Street, London, N1 0AL

We are writing to provide an update on Barnsbury Medical Practice.

As you may be aware following our letter to registered patients in July 2023, Islington GP Group Limited, known locally as Islington GP Federation, has provided services at Barnsbury Medical Practice under a 'caretaking' arrangement since 19 January 2021.

In our letter, we informed patients that this was a short-term arrangement until NHS North Central London Integrated Board completed a procurement exercise and appointed a permanent provider of GP services. This process has now concluded, and the successful provider is Islington GP Group Limited. From 1 July 2024, Islington GP Group Limited will provide services to patients registered at Barnsbury Medical Practice under a new contract.

What does this mean for patients?

You do not need to do anything. Your GP services will continue to be provided as normal and you will continue to be registered at the practice.

- The practice telephone number (020 7700 9700) will remain the same.
- Your medical records will remain at the practice.

The GP practice team will be organising Patient Participation Group engagement sessions at the practice where patients can meet the team, ask questions, learn more about the services provided and how to become involved in shaping future services. Information about these events will be displayed within the practice and on the practice website: www.barnsburymedicalpractice.nhs.uk

If at any time you wish to change your GP practice, you can find information about local practices by visiting: www.nhs.uk . First check that you live within the registration area of your chosen practice and then ask its staff to support you through the registration process.
