

ACTIVITY

IDEA GENERATOR

YOU WILL NEED:

THE IDEA CARDS, PENS/PENCILS, SCISSORS

Choose eight Idea Cards that you like. Write each idea in the shaded central triangle of the Idea Generator.

If you would prefer, write an idea of your own that you want to try instead.

Cut out the outside of the Idea Generator and fold following the instructions.

YOU HAVE COMPLETED THE IDEA GENERATOR!

Use it to give you a new idea when you want to change your routine and try something new.

HOW TO USE:

Use with a friend or alone. Hold your Idea Generator so that the points are all pinched into the centre and you can only see the external flaps.

Choose one of the colours of the external flap. Spell out the colour and snap the Idea Generator between its two different directions (in a pinching and pulling motion) as you spell it out.

Choose one of the four internal flaps that have been revealed. Count up to the number and move the Idea Generator in its two different directions as you count up. Choose another number and open the flap underneath that number.

NOW YOU HAVE YOUR IDEA TO TRY OUT!
