B

Walthamstow Library, Central Library High Street, London E17 7JN

The NHS is prioritising vaccinating people who experts have agreed will benefit the most. We will let you know when it is your turn.

GETTING THE HELP YOU NEED
The NHS in London is very busy as coronavirus infection rates continue to be high, but we'll help you get urgent care when you need it.

Most consultations are over the phone and via video. This is for everyone's safety. We will assess your situation and invite you into the practice if needed.

We can arrange same-day appointments if you need urgent care but please don't visit without an appointment. Appointments will be held in the best way to keep you safe from Covid.

You can also contact 111, day or night, for other urgent health advice - including if you have concerns about your Covid-19 symptoms.

Please remember that 999 and A&E are for emergencies.

Please help reduce infections, protect the NHS and keep each other safe by following the latest rules.
