

# Cambridgeshire and Peterborough Appointment Data across General Practice January 2023

published 23 February by [NHS Digital](#)

## 510,009

In January, over half a million appointments – the equivalent of 1 in 2 cambridgeshire & Peterborough residents accessed care across our 88 GP Practices

## 340,899

Almost 70% of all patients were seen face to face

## 256,332

Over half were seen on the same day they contacted their GP Practice

-  Across England, we have seen a **collapse in the GP and practice nurse workforce**, at the same time as there's been a large expansion in hospital doctors and staff over the past decade.
-  Locally, **95% of Cambs & Peterborough Drs and nurses** are based in our **hospitals**. **Only 5%** are in our **GP Practices** – patients will experience a **supply and demand mismatch**.
-  If supermarket queues are crazy, do we shout and complain at the checkout assistants? **Please do not fall into the trap of blaming our GPs and their practice staff.** We are all trying to do the best we can, with what we have.
-  Patients will be offered appointments with the **right clinician** at the **right place** and within the **right timeframe** - based on **clinical urgency** and **need**.
-  We know all NHS services are stretched for patients right now across England. The same is true across Cambridgeshire & Peterborough.
-  We are working as hard as we can **to try to meet you and your family's needs.**  
**We are truly grateful for your patience and your support**
