

# FFT Monthly Summary: May 2019

Vanbrugh Group Practice  
Code: G83021

## SECTION 1 CQRS Reporting

### CQRS Reporting

| FFT001 | FFT002 | FFT003 | FFT004 | FFT005 | FFT006 | FFT007 | FFT008 | FFT009 | FFT010 | FFT011 | FFT012 |
|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| 84     | 38     | 9      | 7      | 2      | 1      | 0      | 0      | 0      | 141    | 0      | 0      |

Notes: 1. The CQRS Reporting table scores above should be entered directly as presented into the CQRS System. For further information please contact the CQRS service desk on 0800 440 2777 or email them at [cqrsservicedesk@gdit.com](mailto:cqrsservicedesk@gdit.com). Please select the 'Data Submission' tab from the main menu.

## SECTION 2 Report Summary

| <b>Surveyed Patients:</b> | <b>453</b>       |            |                             |           |                    |            |             |
|---------------------------|------------------|------------|-----------------------------|-----------|--------------------|------------|-------------|
| <b>Responses:</b>         | <b>141</b>       |            |                             |           |                    |            |             |
|                           | Extremely Likely | Likely     | Neither Likely nor Unlikely | Unlikely  | Extremely Unlikely | Don't Know | Total       |
| SMS - Autopoll            | 84               | 38         | 9                           | 7         | 2                  | 1          | <b>141</b>  |
| SMS - User Initiated      |                  |            |                             |           |                    |            |             |
| Tablet/App                |                  |            |                             |           |                    |            |             |
| Web/E-mail                |                  |            |                             |           |                    |            |             |
| Manual Upload             |                  |            |                             |           |                    |            |             |
| <b>Total</b>              | <b>84</b>        | <b>38</b>  | <b>9</b>                    | <b>7</b>  | <b>2</b>           | <b>1</b>   | <b>141</b>  |

 7%

## NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

$$\text{Recommended (\%)} = \frac{\text{extremely likely} + \text{likely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$

$$\text{Not Recommended (\%)} = \frac{\text{extremely unlikely} + \text{unlikely}}{\text{extremely likely} + \text{likely} + \text{neither} + \text{unlikely} + \text{extremely unlikely} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

<http://www.england.nhs.uk/ourwork/pe/fft/fft-test-review/>

## SECTION 3 Practice Scoring

### Practice Score: 'Recommended' Rank

**Your Score:** **87%**  
**Percentile Rank:** **35<sup>TH</sup>**

- Notes: 1. Display the 'Recommended' score and percentile for current reporting month.  
2. Score calculated as per NHS requirements. See scoring guidance section.  
3. Percentile represents how your 'recommended' score compares to all other practices managed by iPLATO. Your score of 35th percentile means your practice scored above 35% of all practices.

### Practice Score: 'Recommended' Comparison

- Notes: 1. Practice score comparison of 'recommended' scores only.  
2. Score calculated as per NHS requirements. See scoring guidance section.

### Practice Score: 'Recommended' Demographic Analysis

- Notes: 1. Scores for current reporting month.  
2. Score calculated as per NHS requirements. See scoring guidance section.

### Practice Score: Day of the Week Analysis

- Notes: 1. Practice performance by Day of the week. Represents actual score for all 'days' during reporting period.  
2. Score calculated as per NHS requirements. See scoring guidance section.

## SECTION 4 Patient Response Analysis

- ✓
- ✓ *The kindness of the doctors.*
- ✓ *The staff are very friendly and helpful doctors always there to listen to ur problems and very understanding in trying to help you*
- ✓ *Good service staff nice nurses good and doctors*
- ✓ *Efficient, well-run, professional.*
- ✓ *Because the Dr I saw was very nice during my appointment and she told me everything I needed to hear*
- ✓ *Lots of services available at the vanburgh practice, blood test, telephone conversation with doctors and doctors are very good and helpful*
- ✓ *Quick appointment, helpful and friendly :-)*
- ✓ *General practice has lost the personal, more caring touches it used to have.*
- ✓ *The reason is because I saw Dr Anita Belgaumkar and she was really lovely she apologised for my wait which was actually not too long, was very warm and @ and empathic and friendly, spent time talking through everything she thinking and tests she was doing and spent time explaining my prescription. She also gav@o gave me a really clear plan about next steps and made me feel supported and cared for @ for*
- ✓ *Human touch, understanding staff members*
- ✓ *Because even if the problem is not resolved dr.cassidy is patient and easy to talk to when I'm under extreme stress*
- ✓ *Lovely reception stuff helpful and informative ( esp senior !) Doctor Hana very helpful Great phlebotomist taking my blood with no fail ( as most of the@f the time they have troubles with my veins:))@ins:)*
- ✓ *Very kind respectful compassionate practice*
- ✓ *Excellent gp. Mary Parker.*
- ✓ *Punctual appointment*
- ✓ *The GP was very helpful*
- ✓ *Convenient online booking*
- ✗ *Although I saw a nurse very quickly an appointment to see a gp (on the nurses Advice) is three weeks away*

### Not Recommended

- ✓ *It is difficult to reach the practice by phone, and the availability of appointments is well below par. The app is unstable and often doesnt do what it i@ it is supposed to do. Lastly, obtaining recurring prescriptions is a time consuming process, and always a hit or miss@ miss*
- ✓ *There is a long history of dealing with blood tests requests and doctor review at the practice. Taking over 2 weeks to find out critical results. On this@ this occasion required a blood test form for blood test arranged for today. Since Monday Required 3 calls, one telephone appointment and still the incorrect @rect blood test form was provided. I have spent total of time hour and 45 minutes on calls and waiting to obtain the form. I still do not have the correct for@t forms for the future weekly test. The whole process is shockingly inefficient and putting the Heath of patients at risk@ risk*
- ✓ *Quality of medical care*
- ✓ *Lack of bedside manner and empathy, and didn't state when appointment was over - just turned to pc and started typing.*
- ✓ *I waited half an hour then asked about the doctor. I was only them told the doctor had not arrived. I was put on a list to be seen by another doctor. Thi@. This list was growing as they already had another doctor who had not arrived. I did not get to see a doctor. @tor.*
- ✓ *Unable to book appointments if you need to see a doctor urgently.*
- ✓ *No evening/Saturday appointments and generally no appointments available*

### Passive

- ✓ *Because you have to wait ages for an appointment*
- ✓ *Because there is almost 3 weeks of waiting for an appointment. This is too long*
- ✓ *The issue is waiting for the phone to be answered and unhelpful receptionist. Also long waits for appointments. Doctors/nurses good once you get to see them.*
- ✓ *Doctors are excellent. However, system of working is poor.3 weeks ago I was told by 111 that I must see a doctor within 8 hours. I told that to the rec@e reception on the phone but they still insisted that the doctor must speak to me first. That was 10 hours after I had been told must see a doctor and it was @ was 13 hours before I actually saw a doctor.The need to see a doctor should not be assessed by a receptionist.It is noticeable that when I spoke to the doc@e doctor he said come immediately but the receptionist would still not give me an appointment for 3 hours. @rs.*
- ✗ *Bad experience with reception: After my 2 months old baby received its 1st vaccines, I was queuing at reception in order to get him an other appointment.@ment. I was queuing behind someone being attended (the last secretary on the right) When it was my turn, the receptionist did not attend me and attended someo@someone who arrived after me because I was queuing at the wrong place (in her opinion, the right place was 2 metres away). I found the situation really unfair@nfair and stupid because when I arrived no one else was queing, I have seen no indication explaining to patient where they are supposed to queue and additiona@tional waiting time is not welcome when you are trying to calm a baby in pain@ pain*
