NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

$$\text{Recommended (\%)} = \frac{\text{very good} + \text{good}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

$$\text{Not Recommended (\%)} = \frac{\text{very poor} + \text{poor}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

- ✓ *good listener resolved issue*
- ✓ Generally I get an appointment when needed and the staff are all very nice and helpful
- ✓ *Because of my appointment this morning could cancel when I did not late but I explain about putting my details in the machine and it did not accept me so I was late. And get help.*
- ✓ My doctor was really positive about my no smoking - she listened to me and helped me with all my thyroid concerns - without a doubt - best consult I've had at your surgery
- ✓ *Quick and friendly service*
- ✓ The doctor was super professional and efficient. The speed at which I can get follow up blood tests & ultrasound scans was too slow.
- ✓ *Speed of access and awareness of my condition.*
- ✓ Receptionists are always very polite especially Tina is always very helpful and polite
- ✓ *The nurse was SO lovely. She totally reassured me and I felt really comfortable. She talked me through everything.*

- ✓ Because you asked me how was my experience today. I didn't make it up for nothing. You must know you asked, and that's what I experienced. If that's not good enough ask someone else. You need to see a doctor.

- ✓ Why you are asking questions? So I gave answer ?
- ✗ *DR GRIFFITHS WAS FRIENDLY BUT PROFESSIONAL MANNER AND LISTENED CAREFULLY*

Not Recommended

- ✓ *Because the wrong blood form was prepared incorrectly by Dr Kudari today and he has declined to correct the error, and I have been told to make an appointment with another GP to get it corrected. This means more weeks of waiting to get my CRP tested, and the blood taken from me today is wasted. Dr Kudari is sending my bloods to be tested for kidney function despite the fact that the long investigation into my kidneys has been closed off. This wastes NHS phlebotomy resources and means more weeks waiting for me. I was in the waiting area earlier and Dr Kudari could simply have spoken with me if the notes were unclear to him.*
- ✓ *condescending doctor. Very rushed*
- ✓ Sorry for the inconvenience. I sent wrong number. My experience was very good.
- ✓ *The GP did not prepare for the appointment and so didn't know I have cancer.*
- ✓ Staff are always friendly, pleasant and helpful. Nice calm, spacious waiting area. More importantly, saw a Dr who took the time to listen to me, didn't rush me, and so I left feeling good! Thank you.
- ✓ *This has been booked for ages and then an hour before the appointment the nurse called and said he couldn't have the vaccination.*
- ✓ My bad should be 1
- ✗ *THE LADY ON THE PHONE CALLS WAS RUDE*
