Welcome and Introduction by Anushia

Lambeth Together starts 2022 with a pledge to improve health and wellbeing for all. Leaders of Lambeth's health organisations have made a pledge which describes the work of the Lambeth Together Care Partnership to improve health and care and reduce health inequalities in the borough.

Leaders of Lambeth's NHS, council and voluntary and community organisations have recorded a video of their pledge which describes how they will work as the Lambeth Together Care Partnership to improve health and care and reduce health inequalities in the borough. This comes at a time when partners are preparing for new formalised arrangements in line with the Government's [Health and Care Bill](#) to build better joined up systems around health and care. Watch their pledge [here](#).

From 1 January 2022, the Lambeth Together Care Partnership began to operate in shadow form, in anticipation of the legislation placing integrated care systems on a statutory footing in the summer of 2022. The new arrangements will improve the borough's shared planning and delivery of services, as one of six place-based partnerships of south east London's developing integrated care system. The Lambeth Together Care Partnership will have responsibility for delivering a new Lambeth Together Health & Wellbeing Strategy and the borough's Health & Care Plan.

### About the Public Forum

**[Lambeth Together Board members](#)** want to know what matters to Lambeth people to help them plan health and care services.

The Lambeth Together Public Forum is an informal meeting for people and groups interested in health and care to:

- Meet local decision makers
- Ask questions
- Share what matters to you and your community
- Influence plans for health and care in Lambeth

We want to hear from all different communities. So whether you're a volunteer or a faith leader, from a patient or carer group, a tenant or youth forum – if you're studying, working or living in Lambeth you're welcome to drop in.

### NHS Reform

In February 2021, the Conservative government published [Integration and Innovation: Working Together to Improve Health and Social Care for All](#). The white paper set out the key elements of a health and care bill, the most significant legislative reform to the NHS since the Coalition Government published the Health and Social Care Act 2012.

The government's reforms outline a move away from key tenets of the Health and Social Care Act 2012, most notably reducing the emphasis on competitive tendering and outsourcing of healthcare services in favour of embracing collaboration and partnership working.

### **Mosaic Clubhouse and the Lambeth Alliance shortlisted for HSJ Award**

Mosaic Clubhouse and the Lambeth Living Well Network Alliance are delighted to announce that they have been shortlisted for the Best Mental Health Partnership with the NHS category at the HSJ Partnership Awards 2022, recognising their outstanding contribution to healthcare in what has been an exceptional and challenging period across the sector. The Lambeth Living Well Network Alliance brings together member organisations: South London and Maudsley NHS Foundation Trust, Lambeth Council, Certitude and Thames Reach, along with health and social care commissioners to deliver a transformation in the way people in Lambeth recover from mental ill health and stay well.

Anushia thanked everyone for attending the meeting.
