

Healthy.io <> The Groves Hinchley Wood

ACR project for patients with diabetes

This practice is working with a company called Healthy.io to provide a pilot programme sponsored by NHS Digital to monitor urine albumin:creatinine ratio (ACR) annually for patients with diabetes. This enables patients with diabetes to test their kidney function from home. With your permission, we will share your contact details with [Healthy.io](#) to enable them to contact you and send you a test kit. This will help identify those at risk of kidney disease and proactively manage early interventions for the benefit of patient care. If you do not wish to be contacted by [Healthy.io](#), you will have the opportunity to say so by replying to the text message sent from our practice and when you will be contacted by Healthy.io onboarding team.
