Hanham Health – Introduction to Pilning Surgery patients

14th February, 2024

Hanham Health are delighted to have accepted the invitation from Montpelier Health to take over the running of Pilning Surgery due to the forthcoming retirement of Dr Tim Mitchell.

The GP Partners, management and staff of Hanham Health, and specifically Almondsbury Surgery, look forward to working with the staff and patients at Pilning Surgery to continue to provide high quality Primary Care services to the local community.

Whilst work continues to finalise legal and contractual arrangements and the exact date of the handover is still to be confirmed, Hanham Health and Montpelier Health are already working closely to ensure the smooth transition of services.

Changes will be kept to a minimum initially and introduced carefully over time in consultation with staff and patients, with a view to improving services through better integration with Almondsbury Surgery.

Discussions regarding the transition are already underway with Patient Participation Groups at both surgeries to help ensure there is minimal disruption for patients and we look forward to meeting patients who have questions at a drop-in Q&A session on Thursday 14^{th} March, 18.45-20.15, in Pilning Village Hall

Further information and updates for patients will be published in due course.

Finally, we would like to pay tribute to Dr Mitchell who has delivered such wonderful service to patients at Pilning Surgery since 2013 and wish him a very happy retirement.

Dr Jenny Lockey and Dr David Atherton - GP Partners, Hanham Health
