

Team Leeds Chats (TLC)

Coming together to *talk, listen* and *connect*

We are hosting a series of online TLCs, which are open to anyone who works in health and care in Leeds. TLCs offer an opportunity to reflect on your experiences, share your stories, and connect with your Team Leeds colleagues.

In **March** we are hosting TLCs based on two themes:

- **Team Leeds: working even better together**
- **Living and working through the pandemic**

The experiences you share will help make Leeds a better place to work.

To book your place contact the programme team by emailing:
leedsth-tr.heartsandminds@nhs.net

Please share with others.

What is Team Leeds Hearts and Minds?

TLCs are part of our Team Leeds Hearts and Minds programme - an engagement, development and culture change programme to shape the way we work together to improve people's outcomes and experience of health and care in Leeds. **Find out more at:** www.leedsheartsandminds.org.uk

Date and time	Topic
