

Victoria Thompson

Allie Cusick

Mayfield Surgery are pleased to announce an update on the management of the practice.

Following a long tenure as Practice Manager and Managing Partner, the partners of Mayfield Surgery bade a fond farewell to Kath Hulme in December 2022. Kath has supported the practice and Partners through a lot and Mayfield Surgery has many things to thank her for. Kath left big shoes to fill and as such has been replaced by two new roles: Business Manager and Operations Manager.

The Business Manager position has been filled by Victoria Thompson who has worked for the practice for around a year, supporting the business function and has a management and business accountancy background, previously working for a multinational blue chip company.

The Operations Manager position has been filled by Allie Cusick. Allie has over a decade of NHS experience, primarily in the acute field and has previously specialised in NHS complaints management.

The Partners welcome Victoria and Allie into their new roles at Mayfield Surgery.
