

## GP Fees for Non-NHS Services

The NHS provides most health care free of charge, however, there are a number of other services that are not covered for which fees are charged. If a GP signs a certificate or completes a report, it is a professional duty that they check the accuracy of such information. This may include examining the patient's entire medical record. The fee will reflect both the doctor's time to carry out the services and the doctor's professional opinion. It may also include the cost of nursing, secretarial or administration support.

If you have any concerns about the fee involved, please discuss this with your doctor or nurse prior to requesting the service.
