

Electronic prescriptions help you, your doctors and the environment

- You can help save NHS funds by nominating the pharmacy of your choice to receive your prescriptions electronically.
- **2 out of 3 patients on repeat medicines now receive electronic prescriptions.** Join them by choosing which pharmacy to collect your prescriptions from.
- **Did you know that the NHS spends a significant amount more money processing and storing paper prescriptions?** Choose electronic prescriptions to save you time, save NHS funds and help the environment
- **We're making things easier for you by sending your prescriptions electronically to your pharmacy, ready for you to collect your medicines.**
- Over half of all prescriptions are now electronic.

All you have to do to start using the electronic prescription service is choose which pharmacy to collect your prescriptions from by completing the form [click link to download form in new window.](#)
