Comments

I never had my blood pressure checked or my feet checked which I was told would be done very good.. Great service

very good

very good

good

very nice helpful docter

try to keep appointment times

very good

The booking system - ringing at 8 in the morning doesn't work for me, I am driving at that time and therefore it is impossible to call and wait anything up to 45 mins for an answer, I don't have anyone else to call for me as has been suggested the appointment booking app has been disabled and therefore it is extremely difficult to get appointments under normal circumstances, this leads to putting off necessary appointments

very good
