

The Birmingham and Solihull Shared Care Record is a way of bringing together all your separate records from the different organisations involved in your health and care.

The Shared Care Record is confidential. It will let professionals see relevant information about the care and treatment you've had across all services.

Local GP practices, hospitals, NHS 111, community, mental health, ambulance and social care services will be able to see your records.

Being able to see your information will help us give you better, safer care.

If you don't want your records to be available to view through the Shared Care Record, you can let us know through our website at the address below.

If you need help

Email: collaborative.care.record@nhs.net

Phone: 0345 6461163

Your health and social care records contain important information about you. This might include, for instance, your contact details, medical history, medications, allergies, test results and details of any support you've had from social care or mental health services.

**LAUNCHING
SOON!**

In the next few months, health and social care professionals will be able to see your records through the Shared Care Record.
