Rights and Responsibilities of Patients

People treating/helping you will give their names. The Health Centre and rooms in it will have signs to help you, but if you require assistance please ask at the reception desk.

Your Contact Details: **Please let us know if you change your name, address, or telephone number. It is important** so we can contact you via phone and any clinic or hospital appointments do not go astray, delaying your health care unnecessarily.

Please let us know if you are happy for us to contact you by a text message.

We will do our best to make sure that you understand what we are trying to say and do for you. Please always ask if you are unsure about what we have said. Ask if you want to know more about your treatment.

Routine visits to the doctor are by appointment. Each appointment with the doctor is for 15 minutes. If you have made an appointment, you will not have to wait more than half an hour without an explanation.

If you arrive late for your appointment, **you will be asked to re-book** for another day. If it is a medical emergency that you are seen that day, please make sure the receptionists are aware of your need.

We always try to answer the telephone as promptly as we can. Please switch off your mobile phone when entering the Health Centre – it does interfere with specific equipment in the Treatment Centre. In addition, we ask out of courtesy to other patients, doctors, and staff.
