

- The Greater Manchester Healthier Together Programme will bring about improvements to ensure the best care for *you and your family*.
- But if our health and care services are to change in the future, the NHS needs to know what you think.
- Therefore, the NHS is holding a series of community feedback events in Oldham to find out your views.
- Come along and tell us what you think about the future of healthcare in Oldham, and what best care means to you.

Oldham Healthier Together Listening Event
