

## **DID YOU KNOW THAT THE BEST PERSON FOR YOU TO SEE OR SPEAK TO MAY NOT BE A DOCTOR?**

At The Silverdale Medical Practice, we have a number of different clinicians who may be better placed to help you than a doctor.

We have an Advanced Nurse Practitioner, a Paramedic, a First Contact Practitioner, Mental Health Workers and an in-house Pharmacy team.

We can also refer you to a local pharmacy for some things.

The administration team will help direct you to the most appropriate person in the practice by asking you questions, and this may not always be the doctor.

Please help us to help you by providing as much information as you can regarding the nature of your problem, so you can be treated by the correct person.
