

## DID YOU KNOW THAT WE HAVE OUR OWN IN-HOUSE PHARMACY TEAM THAT WORK ALONGSIDE OUR GPs TO REVIEW AND MONITOR YOUR MEDICATION?

- ▶ They can provide you with information regarding your medication
- ▶ They can make sure that all your medication is in-line, so that you can order your medication at one time rather than ordering individually
- ▶ They can discuss your concerns regarding your medication
- ▶ They can provide alternative medication if your regular medication is out of stock

If you would like to discuss your medication, please ask at reception or ring the practice on 0161 983 0940 to arrange a routine telephone call with the pharmacy team
