

# SWINTON PCN

## Who are Swinton Primary Care Network?

Silverdale Medical Practice have joined forces with the Sides Medical Practice, The Lakes Medical Centre and The Poplars Medical Practice to provide a greater range of extra services. Ones that meet Swinton's needs. Nobody else's.

- ▶ 99 per cent of practices across England now work as part of a primary care network to focus on local patient care together. We're aiming for ours to be one of the best in the country!
- ▶ With increased demand and a shortage of clinical staff, practices find they can provide greater, more personalised care for patients when they can work together on certain services or issues.
- ▶ We are offering extended access to patients registered with the four practices, appointments are now offered from 6.30pm to 8.30pm Monday to Friday and from 9.00am - 5.00pm on a Saturday. These can be GP appointments, nursing or health care assistant.
