### **Notice to new patients in regards to Benzodiazepine**

This surgery does not issue new or ongoing benzodiazepine prescriptions to new patients. By benzodiazepine we mean medication such as Chlordiazepoxide, Lorazepam, Lorazepam, Lormetazepam, Nitrazepam, Oxazepam, Temaxepam and Diazepam.

Patients taking this kind of medication will be offered a reduction programme.

Agreement with this policy is a strict requirement for registration with the surgery.

Patients unwilling to comply with this policy are advised to consider registering with a practice that is able to meet their needs.
