

Income Maximisation Midwifery Project

Are you a mother-to-be?

**Are you receiving all of your entitlements and
benefits?**

**Are you fully aware of maternity and child benefits,
including child tax credits and childcare vouchers?**

**Pregnancy is a good time to receive a financial health check with
the aim of putting more money in your pocket so that you can give
your family the best financial start in life.**

**Contact your midwife for more information about a referral to the
Citizen Advice Bureau for money advice.**
