

Community Wellbeing Hub

New Service User Registration Form

The Community Wellbeing Service is a community based mental health service (run by the Health and Social Care Partnership). Each time you attend the service, we collect aspects of your personal and clinical information to help us provide you with the best possible care, support and interventions.

Your personal and clinical information is confidential and stored electronically and securely in the NHS Lothian records system.

We are committed to working with other professionals where it will benefit your care and support as agreed with you.

If you are happy for your information to be collected and stored in this way, please complete the form below.
