

# Improved access to more local appointments

**Doncaster North**  
Primary Care Network

- Do you find it difficult to attend an appointment during the working day?
- Are you a busy parent with small children?
- Do you rely on people taking you to an appointment?

If so, you might be interested to hear about our new service **available from 1 October** providing some extra early morning, evening and Saturday appointments at one of our GP practices. This is an extension of your GP practice and will offer pre-bookable, routine appointments with GPs, nurses or other healthcare professionals and will be available to patients registered with a GP practice in the North of Doncaster.

This is not a walk-in or emergency service and you will need an appointment to be seen.

## Location

All GP surgeries across the North of Doncaster. Availability of appointments will vary from practice to practice – you will be advised of availability when you call for an appointment.

## How will the service be staffed?

This will be a locally-led service with clinical and practice staff who already work in your local GP surgery and who you know and trust.

## How to book

Speak to your practice reception team to check availability and pre-book an appointment. You can cancel or reschedule your appointment in the same way.

## Opening times

Between 7.30 & 8 am and 6.30 to 8 pm Monday to Friday and 9 am to 5 pm on a Saturday. Availability of appointments will vary from practice to practice – you will be advised of availability when you call your practice to book an appointment.

This is an NHS Enhanced Access service provided by North Primary Care Network which is a collaboration of GP practices across the North of Doncaster
