

Since Jan 1st 2020 we have received 460 referrals into the service.

Below are some comments from our feedback survey that is sent to the Mid Chiltern PCN patients who have been referred to the Social Prescribers after they have used the service.....

We are lucky to have you

A friendly conversation is always helpful.

It is a very important service for people please make sure it's prioritised

Admirable the kindness with which they handle each and every individual case! Well done!

Has helped me get some of my confidence back and feeling more positive

I would recommend it to people who have not been able to go out due to Covid lockdowns and

To know that you are there if I need you

I got what I needed - help with cleaning the house

A world of difference: I have been looking for cleaning help after my wife died last year with a total lack of success, until now.

I'd never heard of them before. My GP referred me to them. If SP can't help, they seem to know which other organisations to refer clients to. And they are very friendly and approachable as well as being helpful

Put me on the road to the feel good factor

Brilliant service

It gives me hope

Kind, sympathetic and helpful.

I wish I'd known about Social Prescribing a year ago. Perhaps they could have provided advice and help while my wife was ill and before she died. I felt very helpless at the time and didn't know where and whom to turn to.

Cheered me up
