

Could your patient be suffering with Long COVID?

University Hospitals
of Leicester
NHS Trust

Post COVID symptoms include

- Headaches
- Dizziness
- Joint pain
- Brain fog
- Fatigue
- Cough
- Anxiety
- Chest pain
- Breathlessness
- Palpitations
- Low mood
- Sleep disturbance
- Pins & needles
- Altered smell & taste

Please refer to the Long COVID service if your patient is experiencing unresolving symptoms, affecting daily living/work.

The service accepts referrals for adults and children over the age of 16 who have had post COVID symptoms for longer than four weeks, or have been clinically diagnosed with Post COVID symptoms.
