## Steps to get started

### Step 1: Reach Out

Contact us through our website or by phone. We are available to listen and understand what you're going through from Monday to Friday, 9 am to 5 pm.

### Step 2: Assessment Call

We'll quickly find out if our services are right for you with an initial phone call. During this call, we'll plan how we can best help you feel better.

### Step 3: Begin Your Therapy

After the assessment, we'll suggest the best therapies for you and aim to start quickly, always keeping in mind what works best for you.

### Ready to Get Started?

If you're not in another mental health program or on a waiting list, you can start straight away.
