

DO YOU HAVE POLMYALGIA RHEUMATICA (PMR)?

There is a new study taking place at hospitals in the UK to find a way to reduce long-term steroid use in patients with PMR:

Would you like to take part?

This study may be suitable for you if you...

- ✓ Are aged over 18
- ✓ Have a diagnosis of Polymyalgia Rheumatica (PMR)
- ✓ Are currently on steroid treatment
- ✓ Have ever needed to increase your steroid dose because your PMR symptoms returned

For any questions and more information

Please contact your local
STERLING-PMR study team:

Hospital name: **Royal Lancaster Infirmary**

Contact phone: **01524 591323**

Contact email: **research.randr@mbht.nhs.uk**

For a map and contact details of all participating UK hospitals, scan this QR code, see <https://ctr.leeds.ac.uk/sterling-pmr-uk/>, or contact STERLING-PMR-ukpatients@leeds.ac.uk.
