 - NHS App/Getting started
 - Feeling unwell? Choose the right Service.

Practice Update.

Autumn/Winter 2025

Newsletter. Since our last newsletter there have been a few staff changes. Over the last year we have been really busy and have expanded our practice team to help us continue to provide our patients with excellent patient care.

We would like to welcome our new receptionists, Brooke Morley, Caroline Keeton and Caitlan Clark.

We have also just advertised for a new Salaried GP details are on the LMC website, our website and Facebook page and hopefully they will join us in spring 2026.

Improving patient care

Aspley Medical Centre is transforming the way patients access care by using our new digital telephony system to identify when telephone lines are busiest and ensure we have reception cover where needed at peak times. The practice has also focused on improving access and care continuity so that more patients can get the care they need more easily. We are also trying to support patients using our practice website, Facebook page for practice information and directing and supporting patients to use the NHS app. Our reception team are also trained in care navigation to support you in choosing the care you need.

Patient Participation Group

If you would like to join our PPG Group just leave your name & contact number and we'll call you with more information. Not much time but would like to be involved?

Why not join our virtual PPG
