

# Manor Brook Medical Centre

## Annual Infection Prevention and Control Statement

Name of Setting:	Manor Brook Medical Centre
Address of Setting:	117 Brook Lane SE30EN
Name of Registered Manager:	Dorothea Sanger
IPC Lead for the Setting:	Kelly Stevenson
Date Produced:	31.01.2025
Produced by:	Kelly Stevenson

### **Purpose:**

**In line with the Health and Social Care Act 2008: code of practice on the prevention and control of infections and related guidance, an annual statement will be prepared each year and will summarise compliance with good practice on infection prevention and control.**

Known outbreaks of infection within the last 12 months:	0
Action taken following an outbreak of infection:	There have been no significant events reported regarding infection control issues in the period covered by this report (April – December 2024). All isolated cases of infection have been managed as per the surgery's infection control policy.

Audits undertaken and subsequent actions:	Hand hygiene audits were undertaken with no significant problems identified. An Infection Control audit was undertaken alongside a representative for NHS England with an overall pass mark of 96.9% Room cleaning audits undertaken and new QR recording system put in place to help aid documentation of cleaning.
Risk assessments undertaken for prevention and control of infection:	A new policy and recording system was put in place for all clinical rooms based on a risk assessment correlating to national standards. Staff immunisation history was reviewed and all new starters assessed for any outstanding vaccines required to help prevent spread of infection.
Education and training received by staff:	Infection Control Lead underwent a 2 day course regarding infection control. All staff who were due to complete their mandatory infection control training have been encouraged to do so.
Review and update of policies, procedures and guidance:	Policies and guidelines reviewed and updated in accordance with national recommendations.
Additional information:	
Date of next review:	Full infection control audit to be conducted December 2025
