

PRIVACY NOTICE

This privacy notice describes the data, the practice holds about you, why we hold it, where and how we store it, how long for and how we protect it. It also tells you about your rights under the Data Protection Legislation and how the law protects you.

Who we are and what do we do?

Redlands Primary Care, Joseph Locke Way, Crediton, Devon EX17 3FD. Telephone 01363 727111. Email redlands.enquiries@nhs.net

Redlands Primary Care is a Data Controller for the data we hold about you. We hold your data in order to provide you with health and social care.

What is personal data and what data do we use?

Your personal data is any information that can be connected to you personally. If you can be identified from the data, it is personal data. The types of personal data we use and hold about you are:

- Details about you: your name, address, contact number, email address, date of birth, gender and NHS number. We may also hold information about your emergency contact, next of kin and carer.
- Details about your medical care: medical diagnosis, record of treatment received, referrals, history of prescribed medication, results of investigations such as X-rays etc.
- Information provided by you: this includes correspondence relating to feedback, concerns and complaints about the service you have received.
- Relevant information from other healthcare professionals, relatives or those who care for you.

We may also hold the following information about you:

- Religion or other beliefs of a similar nature
- Family, lifestyle and/or social circumstances
- Employment details
- Financial details

When we collect your mobile number we use it to text you. We may from time to time send you SMS messages which relate directly to your healthcare. Texts may be regarding appointment confirmations, cancellations and reminders of annual reviews or signpost beneficial services which relate directly to your healthcare.

If you no longer wish to receive communication this way, please let a member of staff know who will be able to update your preferences.

When we collect your email address, we use it to send you emails which relate directly to your healthcare. Emails may be regarding appointment confirmations, cancellations and reminders of annual reviews or signpost beneficial services which relate directly to your healthcare.

If you no longer wish to receive communication this way, please let a member of staff know who will be able to update your preferences.

Why do we process your data and what legal basis do we have to process your data?

In order to process your personal data or share your personal data outside of the practice, we need a legal basis to do so. If we process or share special category data, such as health data, we will need an additional legal basis to do so.

We rely upon Article 6(1)(e) (public interest task) and Article 9(2)(h) (health and social care) for most of our processing and sharing, in particular to:

- Provide you with health and social care
- Share data from, or allow access to, your GP record, for healthcare professionals involved in providing you with health and social care
- Receive data from or access your data on other NHS organisation clinician systems
- Work effectively with other organisations and healthcare professionals who are involved in your care
- Ensure that your treatment and advice, and the treatment of others is safe and effective
- Participate in National Screening Programmes
- Use a computer program to identify patients who might be at risk from certain diseases or unplanned admissions to Hospitals,
- Help NHS Digital and the practice to conduct clinical audits to ensure you are being provided with safe, high-quality care
- Support medical research when the law allows us to do so
- Supply data to help plan and manage services and prevent infectious diseases from spreading.

We rely upon Article 6(1)(d) (vital interest) and Article 9(2)(c) (vital interests) to share information about you with another healthcare professional in a medical emergency.

We rely upon Article 6(1)(e) (public interest task) and Article 9(2)(g) (substantial public interest) to support safeguarding for patients who, for instance, may be particularly vulnerable to protect them from harm or other forms of abuse.

We rely upon Article 6(1)(c) (legal obligation) and Article 9(2)(h) to share your information for mandatory disclosures of information (such as NHS Digital, CQC, Public Health England, and Community Medical Examiners).

We rely upon Article 6(1)(c) (legal obligation) and Article 9(2)(f) (legal claims) to help us investigate legal claims and if a court of law orders us to do so.

We rely upon Article 6(1)(a) (consent) and Article 9(2)(a) (explicit consent), in order to:

- Help the practice investigate any feedback, including patient surveys, complaints or concerns you may have about contact with the practice
- Help manage how we provide you with services from the practice, for example, when you nominate individuals to contact the practice on your behalf
- Share your information with third parties, for example, insurance companies and medical research organisations

We also use anonymised data to plan and improve health care services. Specifically, we use it to:

- Review the care being provided to make sure it is of the highest standard
- Check the quality and efficiency of the services we provide
- Prepare performance reports on the services we provide.

Healthcare staff will respect and comply with their obligations under the common law duty of confidence.

How do we collect your data?

The practice collects data that you provide when you:

- Receive treatment or care from the practice
- Contact the practice by telephone (all telephone calls received and made by the practice are recorded) online or in person
- Complete a form electronically or in paper
- Contact the practice via a Social Network (for example if you communicate with the practice through Facebook)
- Visit the practice's website (if cookies are enabled)

We receive information about you from other providers to ensure that we provide you with effective and comprehensive treatment. These providers may include:

- The GP Practices within the Mid Devon Healthcare Primary Care Network (Bow and North Tawton Medical Practice and Wallingbrook Health Group)
- Other GP Practices
- NHS Trusts/Foundation Trusts
- NHS Commissioning Support Units (CSUs)
- Community Services (District Nurses, Rehabilitation Services and out of hours services)
- Ambulance or emergency services
- Independent contractors such as Pharmacies, Dentists and Opticians
- SCW Child Health Information Services (CHIS)
- NHS Devon ICB (Integrated Care Board)
- NHS Digital
- NHS England
- Local authorities

- Health and Social Care Information Centre (HSCIC)
- Police and Judicial Services
- Educational Services
- NHS 111
- Public Health England and Screening
- Non-NHS health care providers
- Research providers
- Devon & Cornwall Care Record (DCCR)

Online Consultations are provided by a third-party organisation called AccuRx, and by using AccuRx, you are submitting your information to them. This information is then provided to the practice to be reviewed. Further information on AccuRx can be found: <https://www accurx.com/privacy-policy>

You can also use online consultations via the NHSApp. Further information regarding the role of NHS England and the practice can be found: <https://www.nhs.uk/using-the-nhs/nhs-services/the-nhs-app/privacy/online-consultations/>

Who do we share your data with?

In order to deliver and coordinate your health and social care, we may sometimes share information with other organisations. We will only ever share information about you if other agencies involved in your care have a genuine need for it. Anyone who receives information from the practice is under a legal duty to keep it confidential and secure.

Please be aware that there may be certain circumstances, such as assisting the police with the investigation of a serious crime, where it may be necessary for the practice to share your personal information with external agencies without your knowledge or consent.

We may share information with the following organisations:

- The GP Practices: Bow and North Tawton Medical Practice and Wallingbrook Health Group within the Mid Devon Healthcare Primary Care Network
- Other GP Practices
- NHS Trusts/Foundation Trusts
- NHS Devon ICB (Integrated Care Board)
- NHS Commissioning Support Units
- Community Services (District Nurses, Rehabilitation Services and out of hours services)
- Ambulance or emergency services
- Independent contractors such as Pharmacies, Dentists, Physiotherapists and Opticians
- SCW Child Health Information Services (CHIS)
- Local authorities
- Multi-Agency Safeguarding Hub (MASH)
- Health and Social Care Information Centre (HSCIC)
- Police and Judicial Services
- Educational Services
- Fire and Rescue Services
- NHS 111
- The Care Quality Commission, ICO and other regulated auditors

- Public Health England and Screening
- NHS England
- NHS Digital
- Non-NHS health care providers
- Research Providers
- Devon & Cornwall Care Record (DCCR)

In addition to sharing data with the above services, the practice will also use carefully selected third party service providers that process data on behalf of the practice. When we use a third-party service provider, we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating responsibly to ensure the protection of your data. Examples of functions that may be carried out by third parties includes:

- Organisations that provide IT services & support, including our core clinical systems; systems which manage patient facing services (such as our website and service accessible through the same); data hosting service providers; systems which facilitate video consultation, appointment bookings or electronic prescription services; document management services etc.
- Organisations who are delivering services on behalf of the practice (for example conducting Medicines Management Reviews to ensure that you receive the most appropriate, up to date and cost-effective treatments or supporting practices in offering choices of providers and appointments to patients who are being referred via the NHS E-Referral system).
- Delivery services (for example if we were to arrange for delivery of any medicines to you).
- Payment providers (if for example you were paying for a prescription or a service such as travel vaccinations).

The practice will also use carefully selected third party service providers that process data on behalf of the practice. When we use a third-party service provider, we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating responsibly to ensure the protection of your data. Examples of functions that may be carried out by third parties includes:

- Organisations that provide IT services & support, including our core clinical systems; systems which manage patient facing services (such as our website and service accessible through the same); data hosting service providers; systems which facilitate video consultation, appointment bookings or electronic prescription services; document management services etc.
- Organisations who are delivering services on behalf of the practice (for example conducting Medicines Management Reviews to ensure that you receive the most appropriate, up to date and cost-effective treatments or supporting practices in offering choices of providers and appointments to patients who are being referred via the NHS E-Referral system).
- Delivery services (for example if we were to arrange for delivery of any medicines to you).

- Payment providers (if for example you were paying for a prescription or a service such as travel vaccinations).

For further information of how we share your personal data with and our third-party processors, please contact the Operations Manager for IT and Governance on 01363 727111.

Where do we store your data?

We use a number of IT systems and tools to store and process your data, on behalf of the practice. Examples of tools we use include our Core Clinical System TPP, NHSmail, Microsoft 365, INR Star, Cardioview, Adastral, Cervical Screening Management System, Joy, iGPR and AccuRx.

For further information on this, please contact the Operations Manager for IT and Governance on 01363 727111.

GPConnect /Enhanced Data Sharing Module:

We share your record using GP Connect / Enhanced Data Sharing Module to make sure that, whether you are visiting the practice, attending hospital, or being seen in the community or at home by a care professional, everyone knows the care you need and how you want to be treated. Your electronic health record is available to local providers who are involved in your care. This includes the sharing of personal contact details, diagnosis, medications, allergies and test results. Your records will be treated with the strictest confidence and can only be viewed if you use their service.

Please note that if you have previously dissented (opted out) to sharing your records, this decision will be upheld.

For some of our Care Home Residents we share your records using the Enhanced Data Sharing Module with Immedicare so that they are able to provide a virtual clinical support service 24/7 for when you may need to be cared for.

The information being shared can be personal contact details, diagnosis, medications, allergies, and test results. Your records will be treated with the strictest confidence and can only be viewed if you use their service. Further information regarding Immedicare can be found here: <https://immedicare.co.uk/privacy-notice/>

Should you wish to opt-out of, please speak to a member of the Patient Services Team who will be able to update your personal preferences. **Please note that by opting out of this sharing, other health professionals may not be able to see important medical information, which may impact on the care you receive.**

Summary Care Record (SCR)

NHS England have implemented the SCR which contains information about you; including your name, address, date of birth, NHS number, medication you are taking and any bad reactions

to medication that you have had in the past. This information is automatically extracted from your records and uploaded onto a central system.

Many patients who are seen outside of their GP Practice are understandably not able to provide a full account of their care or may not be in a position to do so. The SCR means patients do not have to repeat their medical history at every care setting and the healthcare professional they are seeing is able to access their SCR. The SCR can only be viewed within the NHS on NHS smartcard-controlled screens or by organisations, such as pharmacies, contracted to the NHS.

As well as this basic record, additional information will also be added to include further information. You can find out more about the SCR here: <https://digital.nhs.uk/services/summary-care-records-scr>

National Screening Programmes

The NHS provides national screening programmes so that certain diseases can be detected at early stages. These screening programmes include bowel cancer, breast cancer, cervical cancer, aortic aneurysms and a diabetic eye screening service. More information on the national screening programmes can be found at: <https://www.gov.uk/topic/population-screening-programmes>.

Risk Stratification

Your medical records will be searched by a computer program so that we can identify patients who might be at high risk from certain diseases such as heart disease or unplanned admissions to hospital. This means we can offer patients additional care or support as early as possible.

This process will involve linking information from your GP record with information from other health or social care services you have used. Information which identifies you will only be seen by this practice. More information can be found at <https://www.england.nhs.uk/ig/risk-stratification/> or speak to the practice.

One Devon Dataset

As well as using your data to support the delivery of care to you, your data may be used to help improve the way health and social care is delivered to patients and service users throughout Devon using Population Health Management methods.

We will use a pseudonymised extract (ie. **not** identifiable information) which will be extracted and held securely by NHS Devon ICB (Integrated Care Board) and in partnership with the Local Authorities. Data will be used to support the Devon Integrated Care System to improve short-term and medium-term health outcomes for local populations. If you would benefit from some additional care or support, your information will be shared back to the practice, or another local provider involved in your care, so that they can offer you direct care.

If you have previously asked the practice to apply a Type 1 opt-out to your medical records, this will be applied by NHS Devon ICB.

Further information about Population Health Management can be found here:

<https://www.england.nhs.uk/integratedcare/what-is-integrated-care/phm/>

Further information about the One Devon Dataset can be found here:

<https://onedevon.org.uk/our-work/services-and-support/population-health-management/>

We will rely on public interest task as the legal basis for processing your data for this purpose. You have a right to object to your information being used in this way. If you wish to discuss this further, please contact Redlands on 01363 727111.

NHS South, Central and West Commissioning Support Unit – Child Health Information Services (CHIS)

Purpose – South, Central and West Child Health Information Services (SCW CHIS) is commissioned by NHS England to support the monitoring of care delivered to children. Personal data is collected from the child's GP record to enable health screening, physical examination and vaccination services to be monitored to ensure that every child has access to all relevant health interventions.

For more information: [Fair Processing Notice Child Health Information Services - NHS SCW Support and Transformation for Health and Care \(scwcsu.nhs.uk\)](https://scwcsu.nhs.uk/fair-processing-notice-child-health-information-services-nhs-scw-support-and-transformation-for-health-and-care)

Legal Basis – Article 6(1)(e) ‘...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...’; and Article 9(2)(h) ‘necessary for the purposes of preventative or occupational medicine for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services...’

Processor – SCW, Apollo Medical Software Solutions, System C

iGPR

We use a processor, iGPR Technologies Limited (“iGPR”), to assist us with responding to report requests relating to your patient data, such as subject access requests that you submit to us (or that someone acting on your behalf submits to us) and report requests that insurers submit to us under the Access to Medical Records Act 1988 in relation to a life insurance policy that you hold or that you are applying for.

iGPR manages the reporting process for us by reviewing and responding to requests in accordance with our instructions and all applicable laws, including UK data protection laws.

The instructions we issue to iGPR include general instructions on responding to requests and specific instructions on issues that will require further consultation with the GP responsible for your care.

Devon & Cornwall Care Record (DCCR)

Health and social care services in Devon and Cornwall have developed a system to share patient data efficiently and quickly and, ultimately, improve the care you receive.

This shared system is called the Devon and Cornwall Care Record.

It's important that anyone treating you has access to your shared record, so they have all the information they need to care for you. This applies to your routine appointments and also in urgent situations such as going to A&E, calling 111 or going to an out-of-hours appointment.

It's also quicker for staff to access a shared record than to try to contact other staff by phone or email.

Only authorised health and care staff can access the Devon and Cornwall Care Record and the information they see is carefully checked so that it relates to their job. Also, systems do not share all your data – just data that services have agreed is necessary to include.

For more information about the Devon and Cornwall Care Record, please go to <https://www.devonandcornwallcarerecord.nhs.uk/>.

Accurx Desktop and Scribe

Redlands Primary Care uses digital tools provided by AccuRx Limited ("AccuRx") to support the delivery of safe, effective and efficient healthcare services.

AccuRx Desktop

AccuRx Desktop is a secure communication platform which allows the practice to:

Send and receive SMS messages with patients

Share links, questionnaires and health information related directly to your care

Communicate securely with other NHS organisations involved in your treatment

Where appropriate, communications sent or received via AccuRx Desktop are added to your GP medical record.

AccuRx Scribe

AccuRx Scribe is a clinical documentation support tool which may be used during consultations. It assists clinicians by generating draft clinical notes based on the consultation. AccuRx Scribe does not make clinical decisions and does not replace clinician judgement. All draft notes are reviewed, edited where necessary, and approved by the clinician before being saved to your medical record.

Legal basis for processing

The practice relies on:

Article 6(1)(e) – public interest task

Article 9(2)(h) – provision of health or social care

These are the same legal bases relied upon for other direct care activities outlined in this privacy notice.

Data processing and security

AccuRx acts as a data processor on behalf of the practice. An appropriate data processing agreement is in place to ensure that:

Your information is processed only in accordance with the practice's instructions

Appropriate technical and organisational security measures are maintained

Your data is not used for marketing purposes

Your information is stored securely and is only accessible to authorised healthcare professionals involved in your care.

Further information about how AccuRx processes personal data can be found in their privacy notice:

<https://www accurx.com/privacy-policy>

OpenSAFELY

Redlands Primary Care supports the use of OpenSAFELY, a secure data analytics platform used by the NHS to support health research, service planning and public health activities.

OpenSAFELY is used to analyse pseudonymised patient data from GP records in order to:

- Support approved health research
- Improve understanding of diseases and treatments
- Support the planning and delivery of health and care services
- Improve patient safety and outcomes

OpenSAFELY was developed by the University of Oxford and the London School of Hygiene & Tropical Medicine, in collaboration with NHS England.

How your information is used

- Data used within OpenSAFELY is pseudonymised, meaning information that directly identifies you (such as your name, address or NHS number) is removed or replaced before analysis.
- Researchers and analysts do not have access to identifiable patient data.
- Analysis takes place within a highly secure NHS-approved environment.
- Only projects which have been ethically approved and meet strict governance requirements are permitted.

Importantly, patient data does not leave the secure environment, and results are only released in aggregate, non-identifiable form.

Legal basis for processing

The practice relies on:

- Article 6(1)(e) – public interest task
- Article 9(2)(h) – management of health or social care systems and services

These are the same lawful bases relied upon elsewhere in this privacy notice for activities supporting direct care, public health, service planning and medical research where permitted by law.

National Data Opt-out

OpenSAFELY respects the National Data Opt-out.

If you have opted out of your confidential patient information being used for research and planning purposes beyond your individual care, your data will not be included in OpenSAFELY analyses.

Further information about the National Data Opt-out can be found at:

<https://digital.nhs.uk/services/national-data-opt-out-programme>

Further information

More information about OpenSAFELY, including how data is protected and governed, can be found

at:

<https://www.opensafely.org/privacy/>

How long do we hold your data?

We only hold your data for as long as necessary and are required to hold your data in line with the NHS Records Management Code of Practice 2021. Further information can be found online at:

[Records Management Code of Practice - NHS Transformation Directorate \(nhsx.nhs.uk\)](https://nhs.uk/records-management-code-of-practice)

- Insurance reports are kept for 1 year
- Telephone recordings are stored for 1 year
- Visitor Records for 2 years

What rights do you have?

You have various rights under the UK GDPR and Data Protection Act 2018:

Right of access:

- You have the right to request access to view or request copies of the personal data, we hold about you; this is known as a Subject Access Request (SAR). In order to request access, you should:

Make a written or verbal application to the Practice holding the records, including via email and provide such further information as the Practice may require to sufficiently identify the individual.

An individual should raise a request using the Subject Access Request Form. It is practice policy that subject access requests are made in writing, however, should a patient be unable to provide a written request, the patient should attend the surgery providing photo identification and a member of staff will assist with completion of the form asking the patient to authorise the request by signing.

Please note that you are entitled to a copy of your data that we hold free of charge; however, we are entitled to charge in certain circumstances where the law permits us to do so. We are also entitled to refuse a request, where the law permits us to do so. If we require a fee or are unable to comply with your request, we will notify you within 1 calendar month of your request.

Right to restrict or object the use of your information:

There are certain circumstances in which you can object from your data being shared. Information regarding your rights to opt-out is detailed below:

Consent:

If the practice is relying on the consent as the basis for processing your data, you have the right to withdraw your consent at any time. Once you have withdrawn your consent, we will stop processing your data for this purpose.

However, this will only apply in circumstances on which we rely on your consent to use your personal data. Please be aware that if you do withdraw your consent, we may not be able to provide certain services to you. If this is the case, we will let you know.

Summary Care Record:

The SCR improves care; however, if you do not want one, you have the right to object to sharing your data or to restrict access to specific elements of your records. This will mean that the information recorded by the practice will not be visible at any other care setting.

If you wish to discuss your options regarding the SCR, please speak to a member of staff at the practice. You can also reinstate your consent at any time by giving your permission to override your previous dissent.

National Screening Programmes:

If you do not wish to receive an invitation to the screening programmes, you can opt out at <https://www.gov.uk/government/publications/opting-out-of-the-nhs-population-screening-programmes> or speak to the practice.

Type 1 Opt-out:

You have the right to object to your confidential patient data being shared for purposes beyond your direct care by asking the practice to apply a Type 1 opt-out to your medical records. A type 1 opt-out prevents personal data about you, being extracted from your GP record, and uploaded to any other organisations without your explicit consent. If you wish for a Type 1 opt-out to be applied to your record, please contact: The Patient Services Team, Redlands Primary Care 01363 727111 where you can request a Type 1 Opt-out form.

National Data Opt-out:

You have the right to object to your data being shared under the national data opt-out model. The national data opt-out model provides an easy way for you to opt-out of sharing data that identifies you being used or shared for medical research purposes and quality checking or audit purposes. To opt-out of your identifiable data being shared for medical research or to find out more about your opt-out choices please ask a member of staff or go to NHS Digital's website:

<https://digital.nhs.uk/services/national-data-opt-out-programme>

Our organisation is compliant with the national data opt-out policy.

Cancer Registry:

The National Cancer Registration and Analysis Service is run by Public Health England and is responsible for cancer registration in England, to support cancer epidemiology, public health, service monitoring and research.

Further information regarding the registry and your right to opt-out can be found at: <https://www.gov.uk/guidance/national-cancer-registration-and-analysis-service-ncras>

Right to rectification:

You have the right to have any errors or mistakes corrected within your medical records. This applies to matters of fact, not opinion. If the information is of clinical nature, this will need to be reviewed and investigated by the practice. If you wish to have your records amended, please contact a member of the Patient Services Team. If your personal information changes, such as your contact address or number, you should notify the practice immediately so that we can update the information on our system. We will also ask you from time to time to confirm the information we hold for you, is correct.

Right to erasure:

The practice is not aware of any circumstances in which you will have the right to delete correct data from your medical record, which the practice is legally bound to retain. Although you are free to obtain your own legal advice if you believe there is no lawful purpose for which we hold the data and contact the practice if you hold a different view.

Right to complain:

Please let us know if you wish to discuss how we have used your personal data, raise a concern, make a complaint or compliment. You can contact us at redlands.enquie@nhs.net or telephone 01363 727111.

You also have the right to complain to the Information Commissioner's Office. If you wish to complain follow this link: <https://ico.org.uk/global/contact-us/> or call the helpline on 0303 123 1113.

Data outside EEA

We do not send your personal data outside of the EEA. However, if this is required, the practice would only do so, with your explicit consent.

Data Protection Officer

The Data Protection Officer for the practice is Bex Lovewell and she can be contacted via email on d-icb.deltdpo@nhs.net or by post: Delt Shared Services Limited, BUILDING 2 – Delt, Derriford Business Park, Plymouth, PL6 5QZ.

Cookies

The practice's website uses cookies. A cookie is a small file, typically of letters and numbers, downloaded on to a device (like your computer or smart phone) when you access certain

websites. Cookies allow a website to recognise a user's device. Some cookies help websites to remember choices you make (e.g. which language you prefer if you use the Google Translate feature). Analytical cookies are to help us measure the number of visitors to our website. The two types the practices uses are 'Session' and 'Persistent' cookies.

Some cookies are temporary and disappear when you close your web browser, others may remain on your computer for a set period of time. We do not knowingly collect or intend to collect any personal information about you using cookies. We do not share your personal information with anyone.

What can I do to manage cookies on my devices?

Most web browsers allow some control of most cookies through the browser settings. To find out more about cookies, including how to see what cookies have been set and how to manage and delete them, visit <http://www.allaboutcookies.org/>. If you are concerned about cookies and would like to discuss this, please contact the practice on 01363 727111 or email redlands.enquiries@nhs.net

Changes to privacy notice

The practice reviews this privacy notice regularly and may amend the notice from time to time. If you wish to discuss any elements of this privacy notice, please contact the practice on 01363 727111 or email redlands.enquiries@nhs.net.
