

Are you aged 65+?

North Leeds Medical Practice are supporting a research project called **The INCLUDE Study**

It is looking at:

- How many older people use the internet (go online)
- Who is more likely to use it
- What would help people who find it difficult or don't use it

We hope you will take part in the study.

The researchers would like to hear from **everyone**:

whether you use the internet a lot, a little or not at all!

If you are aged 65 years or over, we may send you the INCLUDE study survey in April or May.

You will be able to return your survey directly to the researchers by post. They are based at Bradford Royal Infirmary.
