Who can get a free blood pressure check?

You can get a free blood pressure check if you:

- are aged 40 and over
- live in England

You cannot get a free blood pressure check if you:

- already have high blood pressure
- have had your blood pressure checked by a healthcare professional in the past 6 months

What happens when you get your blood pressure checked?

A pharmacist, or member of the pharmacy team, will wrap a blood pressure cuff around your upper arm to measure your blood pressure. They will then share the result with you.

Depending on the result, they might:

- give you advice to support healthy living
- give you a blood pressure monitor to take home with you and return later
- advise you to see a GP
