Reasonable Adjustment Questionnaire

The NHS must make changes so it's easy for disabled patients and for those with substantial long-term conditions to access health services.

These changes are called **reasonable adjustments**. For example, we may be able to offer you a longer appointment, an appointment at a quieter time, or arrange for a British Sign Language interpreter to attend an appointment with you.

With your consent, we would like to record your adjustments on your medical record and the Reasonable Adjustment Digital Flag. The Flag is national record accessible by all NHS organisations so your adjustments can be viewed wherever you need treatment.

Details & Consent

Consent may be given by the patient, by a patient representative such as a parent, via a best interest decision on behalf of the patient by a healthcare professional, or via a lasting Power of Attorney for Health and Welfare/ court-appointed deputy or equivalent.
